INFORMATION DISCLOSURE STATEMENT

Sir:

Pursuant to applicants' duty of disclosure, the information listed in the attached form PTO-1449 is brought to the attention of the Examiner.

It is respectfully requested that the information cited in annexed Form PTO-1449 be considered by the Examiner in connection with the above-identified patent application, and that such art be made of record in said application.

The information identified on the attached form PTO-1449 was cited by or submitted to the Patent Office in prior application Serial No. 09/109,614, filed July 2, 1998, which is relied upon for a filing date under 35 U.S.C. §120. Therefore, pursuant to 37 C.F.R. §1.98(d) copies of the information identified herein are not required.

U.S. Serial No. 09/109,614 filed July 2, 1998. These two continuation applications, namely U.S. Serial No. 09/832,648, and U.S. Serial No. 09/832,633, both filed April 11, 2001, disclose and claim subject matter similar to that claimed herein. The two continuation applications were filed after it was discovered that persons other than applicant Cy A. Stein were co-inventors on some of the subject matter claimed in the priority application. One continuation, U.S. Serial No. 09/832,648, claims the subject matter from the priority application invented solely by Cy A. Stein, and the other continuation, U.S. Serial No. 09/832,633, claims the subject matter from the priority application jointly invented by Cy A. Stein, Paul Cossum, Robert Rando and Joshua Owjang. The priority application was abandoned in favor of the two continuation applications.

The inventorship of the subject matter claimed herein has also been recently reviewed, and it was determined that such subject matter was jointly invented by Cy A. Stein, Paul Cossum, Robert Rando and Joshua Owjang.

Applicant respectfully directs the Examiner's attention to a Preliminary Amendment, filed in each of these two continuation applications on April 11, 2001, which more fully discusses the inventorship of the subject matter claimed in the priority and continuation applications.

The filing of this Information Disclosure Statement is not an admission that the information cited herein is, or is considered to be, material to patentability as defined in 37 C.F.R. §1.56(b).

Because this Information Disclosure Statement is being submitted before the mailing of a first Office Action on the merits, no fee is believed to be due. However, in the event that a first Office
